

MONIQUE JOHNSON

Financial Advisor

This is the personal finance solution the world needs right now. What an honour to meet you! My name is Monique Johnson and I'm a Financial advisor and proud member of the attooh! Group of Companies, an award winning, Financial Advisor Group with a national footprint. At attooh!, we specialise in a full spectrum of corporate and individual financial services. We are passionate about providing clients with tailor-made financial plans, personalised financial education packages, as well as forming lifelong bonds. You need a financial advisor on your team, one that is truly concerned about your personal and family financial success. When you get to know our brand - you will most probably notice our butterfly icon.

As a single mother of three very beautiful, talented daughters I not only believe in what I sell but I have needed it as I was diagnosed with Stage 4 breast cancer in 2017. It was a long hard battle and the expenses and bill did not stop because I had cancer, but thanks to my Dread disease cover and Income protection, I had the strength to fight and overcome it without having any financial burdens.

This butterfly represents metamorphosis / CHANGE. We all know that change is inevitable, and we should learn to embrace it. I relate to this company icon, as I believe in a metamorphosis of dynamic change and improvement in my life and yours. I believe in helping my clients to breed and accept a growth mindset and to transform their financial lives. This goes together with our company motto: "We make ordinary people Millionaires and make Millionaires Financially Independent". With my qualifications, experience and an incredible support system, I am confident that I can guide my clients to become financially independent Millionaires by implementing holistic, personalised plans to achieve their financial goals and freedom. I have a wealth of experience in the Financial Advisory field and have been in the industry since September 2011, working for a couple of prestigious companies such as Liberty Life, STANLIB and Discovery. I believe that knowledge is an important part of my evolution and continue to expand it by attending regular training seminars, staying abreast of the changes in the industry and being inquisitive of what is going on around me. I obtained my NQF 5 qualification in 2016. It is important to me that I add constant value to my clients and their businesses, so I stay up-to-date on legislation, taxation, products, practices and industry news.

My association with the Discovery Group means I can offer my clients the best financial solutions from a dynamic product range, as well as the benefits of the innovative Discovery rewards programme. We supply tailor-made packages. This along with my personalised service has allowed my clients to make their financial dreams a reality - whilst having a professional and trustworthy advisor along the way. I strive to add value to both their experience and their lives, as we move through the evolution of their financial status. In this uncertain economic climate, it is important for me to maintain a hands-on approach, to ensure that I protect my clients and their businesses from expected and unexpected changes. It's important for us all to make use of the expertise out there and not to struggle alone. That is why we have invented this very personal service - to guide and support you on your journey. With attooh by my side, I look forward to guiding my clients on their own financial metamorphosis to achieve their full potential and financial success. A quote I live by is, "Give a girl the right shoes and she can conquer the world - Marilyn Monroe."
